- 6pm** Debriefing of the races by Christian Karcher, return of the riders
- 6.30pm** Sausage Cake (reserved for runners)
- 7pm** Award ceremony

**After 3 days of racing the top 5 are showing through**

After 3 days of racing things seem to be getting clearer on the provisional leader board, with the two French boats Armen Habitat and Elite Ecole Navale well in the lead (23 and 24 points respectively) but the Spanish boat Enbata80 is lying in ambush in third place in front of its compatriot GPBullhound. Ecole Navale Locaponton is fifth on the same number of points as the fourth boat.

### **A fine lesson in tenacity from SNSM Globe for you**

The J80 SNSM Globe for you, skippered by Titouan Sessa, was the victim of a racing collision on Wednesday and had a deep split in its portside freeboard to show for it. The crew could have thrown in the towel, the boat being in such a state. But not a bit of it! Until late in the evening, drill in hand, the crew moved heaven and earth to make running repairs using plywood and resin. "We would really like to finish the week racing!" explained one of the crew.

### **The atmosphere on the village with the Kafi Band**

A very generative music, in permanent interaction with its audience, the Kafi band has put a great atmosphere on the village!

### **Volunteers of the day : the Bar**

In an event such as the European J80, the bar is the unmissable meeting of competitors in return for the regatta but also of the public. This event is hosted by teams of volunteers who take turns. 'We made 180L of beer in 3 hours without counting fruit juices and mineral water,' explains a volunteer of the bar!
